The GO-ASSET Platform

Asset College have partnered with GO1 to deliver Australia's most employment focused training solution for Job Seekers.

For over 12 years, Asset College, a leading Registered Training Organisation (RTO), has been delivering quality employment focused training solutions to support Job Active, Disability Employment Services (DES), Transition To Work Program (TTW) and Early School Leavers, assisting individuals transition into sustainable employment.

Founded in 2009, GO1 is an Australian world leader in the delivery of online learning and education, working alongside many of the leading educators worldwide, delivering a truly comprehensive library of training content.

Business Skills	Customer Service	Communication	Compliance
Finance	Health & Safety	Human Resources	Leadership
Management	Project Management	Personal Development	Sales

Why Asset and GO1?

- Unlike many other Job Seeker Training 'Solutions', our cost effective combined 'GO-ASSET' solution has been designed with employability outcomes at the core of delivery.

- The partnership combines quality nationally recognised training, delivered by quality trainers supported by an extensive library of 'bite sized' training resources and employment readiness coaching.

Deliverables

'GO-ASSET' delivers truly measurable activity with employment focused outcomes for students.

- Cost effective Employment focused outcomes delivered over 26 – 52 weeks to identified benchmarks required
- Nationally Recognised Certificate III Qualifications
- Effective Blended delivery model with Student tracking & accountability
- Real Trainers supporting student outcomes
- Integrated Employment Readiness Coaching
- Individualised learning support via extensive customisable e-learning
- Access to over 1000 GO1 e-learning modules

How does it work?

- Job Seekers are enrolled into an initial 26-week delivery program, supported by weekly online video webinar inductions, fortnightly online live webinar training sessions and over 1000 e-learning modules.

- The program is designed to assist learners to engage and progress through their nominated Certificate III. Students are engaged from week 1 to ensure they are comfortable the learning style and equipped to actively participate.

Student Engagement

From week 1, students are engaged via their assigned trainers both individually and within groups.

Scheduled engagement with real trainers can be provided in class, telephone, email or via the ZOOM Platform, allowing access via mobile, tablet or PC.

The ZOOM platform is the standard engagement tool as it provides both individual and group interactions with other students as needed or required.

Reporting and Accountability

- Underpinning student engagement is an online reporting facility, providing details of activity status, progression and completion. This is available in-demand for consultants and other authorised individual both at site and regional level.

Measurable Outcomes

- GO-ASSET Provides a scheduled weekly report of all enrolled student's status and activity to ensure transparency relating to progression and engagement.

- Tracking training on key areas such as compliance, on-boarding and professional development with a range of highly configurable reports is easy.

Supported Learning

- In addition to the core Qualification focused content and assessment, students are provided access to the GO1 Library. This extensive library of over 1000 e-learning courses covers:

    - Business Skills
    - Customer Service Skills
    - Communication
    - Compliance
    - Computer and IT Skills
    - Employability Skills
    - Health and Safety
    - Retail Skills
    - Sales Training
    - and much more

    - Courses range from bite sized learning elements through to longer modules that can be focused to Job Seeker's learning requirements as needed.

Employment Readiness Training – Embedded

- Asset College understand that not everyone learns or engages in the same way.

- Whilst the standard delivery model is delivered as an online 'real trainer' supported environment, Asset are also able to provide a tailored blended solution to meet varying needs of learners.

    Employment focused e-Learning courses available on demand include

    - Achieve Productivity in your life
    - Active Listening
    - Become Job Ready
    - Changing your mindset and approach
    - Customer Service Skills
    - Effective Communication
    - Emotional Intelligence – Improving your Social Skills
    - Establishing your financial goals
    - FISH! Philosophy - Catch the energy.
    - Release the potential
    - Get that job
    - Get It Done - Managing Emails
    - Health and Wellbeing
    - Learning – Word
    - Learning – Excel
    - Learning – PowerPoint
    - Making an Impact – Non-Verbal Communication
    - On your way to a meeting
    - Personal Grooming
    - Preparing for an Interview
    - Personality Types and Stress
    - Sending Emails to the right person
    - Setting effective goals
    - Recognising and managing stress
    - Thinking on your Feet
    - Time Management Skills
    - The ABC's of Effective Communication
    - Tips for Interviewees
    - And many more…

All content is 'bite' sized ranging from 'just in time' courses of just a few minutes through to more detailed learning support of up to around an hour.

Online, Distance or Blended Learning Outcomes

- Asset College understand that not everyone learns or engages in the same way.

- Whilst the standard delivery model is delivered as an online 'real trainer' supported environment, Asset are also able to provide a tailored blended solution to meet varying needs of learners.

- Every student id provided a Language, Literacy and Numeracy (LLN) Assessment prior to commencement. This allows us to tailor a training plan to suit individuals based upon their individual strengths.

    - If needed or identified, standard online course access supported via real trainer online interactions can be alternately be provided as distance education via physical workbooks.

    - Classroom based options are also available.

Qualifications

The following qualifications are currently available:

Certificate III Business   Certificate III Business Administration   Certificate III Customer Engagement   Certificate III Retail   Certificate III Micro Business Operations

  * Additional Qualifications coming soon.

Enrolment Process

- Enrolment for Job Seekers is easy. All we require is a simple enrolment form and student ID emailed to your nominated support email account. Every client has a dedicated support account and assigned client service coordinator.

- If preferred, Asset can accept an Excel Sheet with all details pre-populated.

- All Certificate III Qualifications are delivered in a rotating 26-week semester facilitated over 28 weeks, designed to support completion during this period.

- Students have up to 12 months to complete as needed.

  Within one working day of enrolment, students are provided a 'Welcome Pack' including:

  - Login details and access to their first Unit of Competency
  - Invitation to Induction Training Event
  - Access to GO1 Library of e-learning with specific courses assigned to outcomes
  - Welcome Video outlining the learning process and journey ahead
  - Instruction Guide on how to proceed
  - Training Plan

  - Very two weeks, students have a scheduled live training event to attend.
  - These events are typically 3 hours in duration and are 'face to face' group sessions using ZOOM conferencing.

Investment

- For standard delivery, all Certificate III enrolments are as little as $990.00 per student including full access to the GO1 Library.

Enrolment Numbers	Investment
1-9 Students	$1500.00
10-19 Students	$1350.00
20-49 Students	$1150.00
50 Plus	$990.00

All costs also include full access to the GO1 Library.

- This is invoiced on 30-day terms upon initial sign-up.

- Customised classroom-based delivery is also available to meet specific cohorts.

The 'GO ASSET' Platform – Summary

The 'GO ASSET' integrated cost effective employment focused learning platform for Job Seekers has been carefully designed with employability outcomes at its core.

The solution is designed to deliver measurable outcomes aligned to benchmark hours required for key programs such as Work for the Dole, Transition to Work, Disability Services and Early School Leavers.

It brings together carefully crafted qualifications within a flexible employment focused blended delivery model combined with real time Job Seeker activity monitoring and reporting capability.

The platform is backed by quality trainers providing true student engagement via a mix of scheduled video conferencing events combined with email and voice support.

In addition, Asset has partnered with GO1, an Australian World Leader in the provision of aggregated e-learning content, offering over 1800 online courses across every aspect of employment and business.

This value added solution ensures Job Seeker's always have relevant supporting learning resources at their fingertips.
